

## Distraction Brings Destruction

As we stepped into Heaven and asked to meet with Ezekiel, he asked, "Why haven't you utilized me because I crush the enemy's head?"

We realized that we had slipped up on that matter and apologized to him for not utilizing his services and abilities.

He said, "Be intentional."

We asked, "Is there anything that you would like to share with us?"

He said, "Yes. Get back to the star."

He said, "There is nothing to fear, but fear itself and you are not to be in agreement with fear about anything."

Admitting Ezekiel was right, he continued speaking, "There are many things that the Father wants you to explore, and you must be willing. There is an uncovering and an unveiling in this hour. And to be part of this, *you must run and not walk*. These are exciting times. These are tumultuous times, and this is *time for the body to rise*.

Our job is made much harder when we're not utilized properly. Avail us.

We determined it was a good idea for us to put our engagement with him on a regular schedule. We had been so busy with other tasks that this had slipped by.

To illustrate his point about crushing things under his feet, he took a step and when he did, he squashed something underneath his feet. He explained, "Utilizing me allows what is under your feet by the blood of Jesus to become under my feet."

*And the God of peace will crush Satan under your feet shortly.*  
(Rom 16:20)

It is a type of governing and Ezekiel can squash under his feet what is under ours when we govern properly.

Ezekiel continued his instruction and said,

---

*“Busyness causes a disconnect.”*

---

“Your job as sons is to be connected.”

We acknowledged that we had become overwhelmed with busyness, and he said, “Yeah, the enemy's plan worked well.”

We repented for falling into that trap and again apologized to Ezekiel and expressed our honor to him for all he did for us.

Stephanie said, “You are such a valuable part of the Kingdom on our behalf. We value you and we value your ranks and your commanders and all the patrollers and all that has been built out by the Commander of Angel Armies. So, help us.”

With a grin he said, “You mean like help me help you.”

We recognized that he had been under-utilized.

We asked, “Is there a commissioning we need to do today?”

He replied, “I would love that.” Then he said, “Would you like to go back in time and have me crush the enemy's head?”

“Oh yes,” we replied, “Absolutely. That would be wonderful, Ezekiel. Thank you.”

He replied that it would be his good pleasure and he was looking forward to crushing the enemy's head under his feet.

He said,

---

*“Places of distraction bring destruction.”*

---

“You can utilize me to minimize any destruction and going back, I will not only destroy the destroyer, but we will also rebuild the landscape of the territory that is LifeSpring.”

We thanked him and replied with this commissioning:

*"We do co-labor with you and commission you to destroy the destroyer and to rebuild the landscape and to tighten up the patrols around the territory. We asked the Father to give you every available equipment, army strategies, sounds, vibrations, equations and whatever it is that you need."*

*"Father, we're asking for them to be made available to Ezekiel, his commanders, ranks, and patrollers. We ask for angel food, bread and elixir, and we are commending him to You. He has done a great job."*

Ezekiel then instructed us to tell the people that:

---

*"Distractions bring folly as well."*

---

Folly is essentially unnecessary things.

We continued:

*We also commission you to plunder the enemy's camp and bring the spoils to LifeSpring that belong to us and that have even been lost by others that are no longer on the track so that those things are used for the Kingdom.*

*Where there have been hindrances with the personnel, we commission you to take care of those hindrances and where the Currency Angel has been hampered.*

*We commission you to bring angels to bear on behalf of the Currency Angel, so that what is promised is delivered in Jesus' name.*

As we spoke the commissioning, Stephanie saw Ezekiel cutting off what looked like a web around the Currency Angel. He was bound all the way around and Ezekiel was cutting what looked like a spider web off him.

*We also request angel food, angel bread, angel elixir, and any other provision that they need for the commanders, ranks and the Currency Angel and those with him.*

*Where the messenger angels have been hindered, we commission you to go and free them, and bring them out of captivity if they are in captivity, so that the revelation that you desire for this season is able to come forth.*

*We also commission you to work and co-labor with the warring angels, the awakening angels, the fierce angels and the First Fruits angels.*

We then asked Ezekiel if his commanders and ranks needed anything. He responded saying, “Lassos, Lightning Bolts and readiness for their feet. (Readiness brings speed and agility), and flail (the weapon with a spiked ball on a chain).

We concluded:

*We commission Ezekiel, his commanders, and ranks with the full use of Lassos and Lightning Bolts, and readiness for your feet and for the feet of your commanders and ranks and those that serve with you, and flail and any other weapons that you need.*

Ezekiel reminded us that:

---

*There are more for us than against us.*

---

Stephanie was so excited as she described what she saw Ezekiel doing as he was going back and redeeming time. She saw him pulling off weird looking little mechanical bugs off what the picture was of the computer. She had a knowing that these mechanical bugs had something to do with the technologies.

She said, “They're like these little bitty bugs and he's pulling them off everywhere.

He said, “These little buggers chewed right through the networking.

*We commission you to the full destruction of those and closing of any door that allowed them to come in Jesus' name.*

*We would also request that you send technology angels to remove us from the gray list with every company that has us on the gray list and to keep us off any blacklists.*

Watching what he did next, we saw him typing on a computer and he said that he was uploading an incorruptible file and a corruptible file. The corruptible is meant to go after those that have been working against us. The incorruptible file has been sent out like light. Stephanie saw it as light going through the system.

She responded, "Thank you, Ezekiel" as she saw gray matter turning to white.

*"Thank you, Lord. Thank you, Ezekiel, your ranks and commanders for this. We thank you for the corruptible file against the enemy and the incorruptible file on our behalf and on behalf of the systems and domains, For the technology needed to go ahead of time preparing the way for all things that are coming our direction; tearing down all strongholds traps, lands, thorns, pits, and releasing ahead of time the glory bombs, and preparing the Faraday cages in Jesus' name.*

*We do ask for angel food, bread and elixir and whatever the Currency Angel needs after his release from captivity. Backup angels are needed. And to be able to bring every plan of the Father and all resources into LifeSpring in Jesus' name.*

As the engagement concluded I felt compelled to remind you of resources available in the blog posts on RonHorner.com related to co-laboring with your angels and commissioning them. Let us not ignore the resources Heaven has provided us through these mighty beings.
